## EXPERIENCE

**Full Stack Developer** Feb 2026 - Oct 2026
Collegeopedia

- Built full-stack CRM/ERP modules for college admissions with React.js, Node.js, Express.js, PostgreSQL, and Prisma, centralizing student enquiries, lead management, and application tracking.
- Designed REST APIs and Prisma/PostgreSQL data models for students, admissions, counsellors, follow-ups, tasks, notifications, and payments.
- Implemented JWT authentication and role-based access control (RBAC) for Admin, Manager, and Counsellor roles.
- Developed college receivable and counsellor incentive workflows to track admission-based payments.

**Frontend Development Intern** May 2025 - Jun 2025
Cognifyz

- Built responsive user interfaces with HTML, CSS, and JavaScript, improving responsive design and user experience.
- Integrated APIs and implemented interactive web functionality.

**Web Development Intern** Aug 2024 - Aug 2024
CodSoft

- Completed web development tasks including a personal portfolio website, a landing page, and a calculator application.

## PROJECTS

**Human Resource Management System**
Full-stack HR management system covering employee onboarding, attendance tracking, leave management, payroll, and employee records.
Node.js, Express.js, PostgreSQL, REST APIs

- Implemented secure authentication, role-based access control (RBAC), separate Admin and Employee dashboards, and approval workflows.
- Built REST APIs with database integration to streamline HR operations.

**Job Application Tracker – Chrome Extension**
Chrome extension that captures applied-job details and stores them directly in a Notion database.
JavaScript, Notion API

- Created an organized workflow for tracking applications and maintaining job-search history.

**Next Gen Event Calendar**
Application that aggregates AI-focused events, hackathons, and workshops from multiple online sources.
HTML, CSS, JavaScript

- Designed an interactive frontend and implemented an AI feature for personalized event recommendations based on user occupation.

**Social Media Followers E-commerce Website**
Fully responsive e-commerce website for a client with a shopping cart and QR code payment modal.
HTML, CSS, JavaScript

- Eliminated server and database costs by capturing order details on the frontend and forwarding them by email for manual processing.
